The Environment

- Climate crisis and uncertainty
- Deterioration of ecosystems
- Exponential technological development
- Social tensions and unrest
- Urgency to grow and close economic gaps
- Need to increase access to energy
- Climate change mitigation and adaptation challenges

**Our Business:
Sustainability**

**Our profit in 2021:
COP 2,526 billion**

Report with a Corporate Approach

The Sustainability Strategy (2021) as an integral part of the Corporate Strategy

- It defined ***principles and action criteria*** regarding the challenges of the environment.
- It established ***tactical guidelines*** for:
 1. Facing the challenges of adapting to and mitigating **Climate Change**.
 2. Ensuring high environmental, **Social, OSH and Human Rights** performance.
 3. Building trusting relationships with stakeholders (**corporate governance, ethics, transparency and communications**).
 4. Ensuring contributions from **innovation** to sustainability.
 5. Taking advantage of **financial opportunities** derived from high levels of social and environmental performance and corporate governance.

The 4 strategic axes and the 4 enablers of the Corporate Strategy

***Positive social and environmental impact:** A Social License to operate.

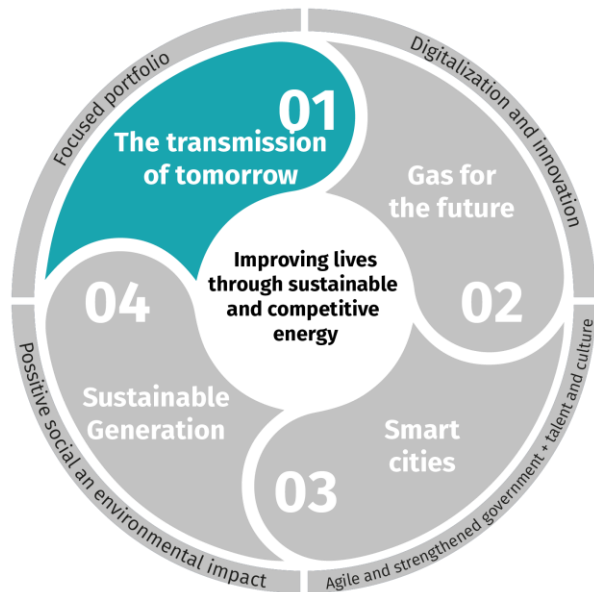

Agile strengthened governance + talent and culture: ethics and transparency, generating trust, compliance, processes, rigorous document management.

Digitalization and innovation: The energy transition and innovation to compete, avoid risks and take advantage of opportunities.

A focused portfolio: ESG to generate value and care for and grow entrusted equity.

1. The Transmission of Tomorrow: enabled by the “focused portfolio,” “digitalization and innovation” and the “license to operate.”

Branch: Operating income COP 406,000 million (3% more than in 2020).
Electro Dunas: Net Income of USD 18.4 million.
Trecca: Net income-USD -3.3 million (42% of the expected loss)

Renewable energy must be transported to consumption centers:

- The Colectora project (La Guajira) will integrate wind and solar energy generated on the Caribbean Coast into the National Interconnected System (NIS):
 - They formalized prior consultation agreements **with 136 indigenous communities**
 - They handed over **the EIA of La Loma – Cuestecitas section** to the ANLA
- Through Argo, GEB acquired **Rialma** Transmissora de Energia III S.A. (Rialma III). **USD 480 million**, and completed more than 2,800 kilometers of transmission lines in Brazil.
- GEB launched the virtual center **Enlaza** to exchange capacities between the electrical operations of Peru, Colombia, Guatemala and Brazil.

2. Gas for the Future: Enabled due to its "positive social and environmental impact," which gives us a "license to operate"

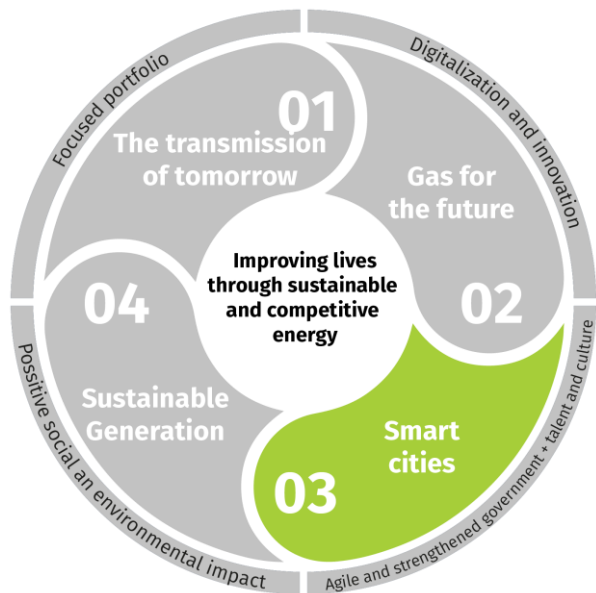

- Gas businesses are bringing countries closer to achieving their NDCs, closing social gaps and bringing us closer to the people:

- Cálidda installed 250,000 new connections in Peru, reaching 1.3 million users.
- Cálidda, TGI and Contugas facilitated replacing coal, diesel and firewood for natural gas, mitigating global climate change.
- **TGI** established a more efficient structure of **costs and expenses** . (Structural savings worth USD 2 million)
- **Contugas** closed with cash flow, did not require capitalization and closed the Agreement with Aceros Arequipa.

- **TGI**: Net income USD 91.6 million
- **Calidda**: Net Income USD **95.7 million**
- **Contugas**: No capitalization was required and it closed with cash flow of USD **35 million**.
- **Aceros Arequipa Agreement** USD 65 million

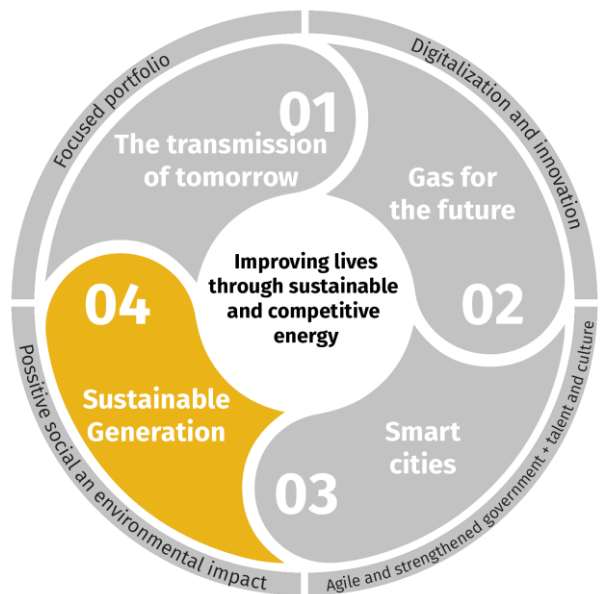

3. Smart Cities – *Bogotá Smart*. Enabled through “digitalization and innovation,” which gives us a “social license to operate” - quality of life and competitiveness

- **Contributing to safety, improving mobility and mitigating Climate Change in Bogotá**
 - **Public lighting is** migrating towards a new **smart** system. ENEL - UAESP Agreement
 - **Mass and individual transportation** are moving towards electrical sustainability.
 - Public facilities are moving towards **self-generation** with solar energy.

4. Sustainable Generation: enabled by a “focused portfolio” with “positive social and environmental impact,” which grants a “social license to operate”

- The agreement with Enel in 2021 allows GEB to:
 - Enter the business of **non-conventional renewable energy sources** in Colombia, Panama and Costa Rica.
 - Play a leading role in the region’s **energy transition**.
 - Contribute to improving **urban quality of life**, especially in Bogotá, through:
 - Smart public **lighting**
 - Distributed **generation** and self-generation
 - Sustainable **mobility** (electric transportation in buses, the metro and suburban trains).
- Participating in a business with a generating capacity of **4,182 megawatts**, 1,300 km of network lines and over 3.5 million customers.

Profits of COP 2.6 trillion annually and investments of close to 2 trillion annually are estimated until 2023

Strategic Enablers

* **Positive social and environmental impact:** A Social License to operate.

Agile strengthened governance + talent and culture: ethics and transparency, generating trust, compliance, processes, rigorous document management.

Digitalization and innovation: The energy transition and innovation to compete, avoid risks and take advantage of opportunities.

A focused portfolio: ESG to generate value and care for and grow entrusted equity.

1. Positive social and environmental impact: a necessary condition to obtain the “social license to operate”

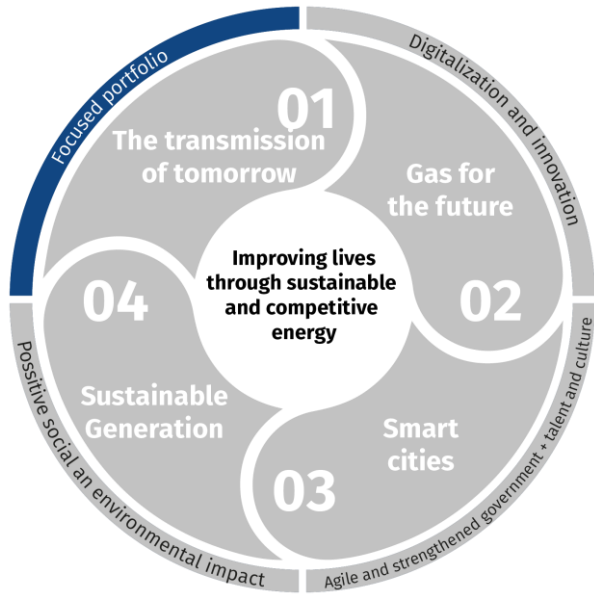

Durante el 2021

- GEB adopted a **Corporate Climate Change Policy**
- GEB **entered the DJSI**, becoming the fourth company in the world and the first in America in the industry.
- **TGI** was included in the **Sustainability Yearbook** of S&P Global.
- Operations in Colombia maintained their **ISO 14001** certification.
- The Transmission Branch began implementing projects under the mechanism of **works for taxes**.
- The Group's companies undertook new efficiency initiatives for **resource use and waste management**.
- All the Group's operations and projects included specific strategies aimed at caring for **biodiversity**.

2. Focused portfolio: a necessary condition to generate value, and grow and care for our entrusted equity

Rialma III (Brazil): BRL 490 million
Transmission assets in the Caribbean (Colombia): USD 30 million

During 2021:

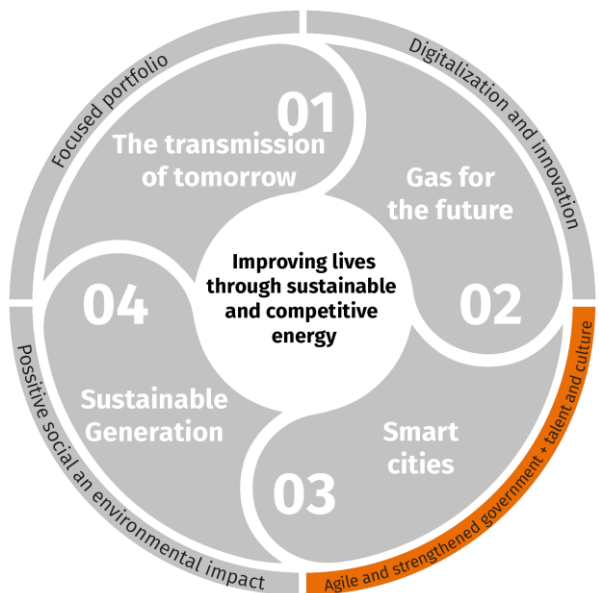

- GEB's new **investments and projects** are all **in line** with the higher purpose: *“to improve lives through sustainable and competitive energy.”*
- Careful environmental **financial and risk assessments** were performed in all investments and new projects.
- Operating and **administrative synergies** that generated profits of nearly USD 700,000 were generated among the Group's companies.

3. Agile, strengthened governance: a necessary condition for building trust

During 2021

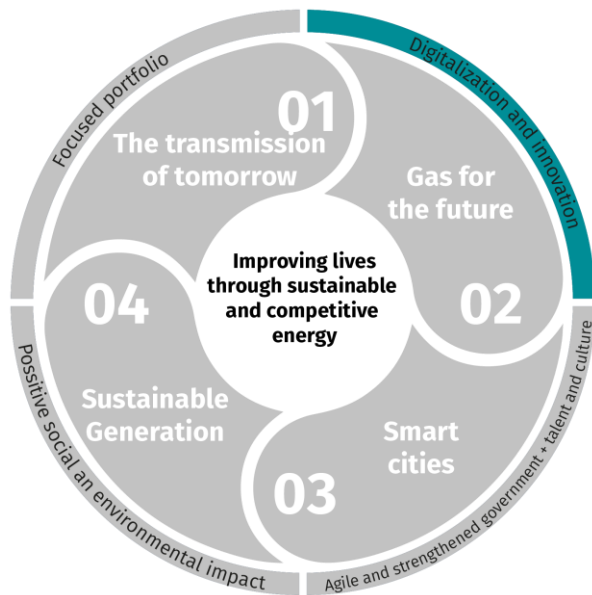

- **The General Meeting of Shareholders** modified the GEB Company Bylaws to guarantee:
 - At least **3 women** on the Board of Directors of GEB.
 - A minimum of **5 of its 9 members** must meet the independence criteria.
- **The Board of Directors** approved the new **Corporate Governance Model** to:
 - Foster a culture of governance, ethics and integrity.
 - Continue the Corporate Strategic Plan (CSP).
 - Ensure transparent and traceable decision-making.
- GEB's **management**:
 - Defined an **Ethics and Compliance** programs.
 - **Re-engineered processes** to ensure greater efficiency and include control mechanisms in decision-making.
 - Strengthened the **Integrated Management System** to use information and documents more rigorously.
 - Adopted a new **Strategic Sourcing Model** and Contracting Manual.
- All the companies made progress in developing **diversity strategies** and equity and inclusion, and improved their indicators.
- **No strategic risks materialized in the Group.**

4. Innovation and digitalization: grow, compete, and avoid risks and take advantage of the transition's opportunities

During 2021, GEB:

- Adopted the **Innovation strategy**
- Designed and started developing the **Innovation Management System (IMS)**.
- Defined the **innovation and open innovation culture road map**.

Challenges

In 2022, we expect to:

- Build an **internal culture** that is aligned with our higher purpose, **with clarity on the challenges** of the technological, social and environmental settings - global and local.
- **Position gas** as an efficient energy transition, and a strategy for building equality and improving health (transportation, domestic).
- Make the role of **transmission businesses visible in the energy transition** and in the construction of equality and prosperity.
- Contribute to the **decarbonization of economies** of the countries in which we operate (GHG emission reduction paths).

- Delve into developing **trusting relationships with stakeholders** and consolidate a culture with high ethical commitment.
- Advance the digitalization and commissioning of the **Innovation Management System**.
- Contribute to local prosperity by helping **communities participate in providing** talent and supplying goods and services.
- Advance in developing a **diverse, inclusive and tolerant** organization that is respectful of Human Rights.
- Design and implement strategies for a **circular economy** in our subsidiaries.
- Identify and dimension the **risks and opportunities** associated with **climate change** (GEB-Colombia and TGI)

Discussion of the Financial Statements at December 31, 2021 and their attachments

- a. 2021 Sustainability Report
- b. **2021 Annual Corporate Governance Report**
- c. 2021 Transactions with Related Parties Report
- d. Presentation of Separate and Consolidated Financial Statements for the period between January 1 and December 31, 2021.

5.b Regulatory Framework

2021 Annual Corporate Governance Report

Circular Letter 028/2014 - Colombian Best Practices

Measure No. 33: Annual Corporate Governance Report

The Company prepares an annual Corporate Governance Report and the Board of Directors is responsible for its contents, after their review and a favorable concept by the respective committee. This report accompanies the remaining documents of the end-of-year accounting period.

GEB internal regulation

Corporate Governance Code

V. INFORMATION DISCLOSURE

a) Annual Corporate Governance Report
As an additional information mechanism for its investors and the public, GEB S.A. ESP prepares an annual Corporate Governance Report, under the responsibility of the Board of Directors. This report is submitted to the General Meeting of Shareholders, following a review by the Audit and Risk Committee, and is available on the web page.

5.b Introduction

2021 Annual Corporate Governance Report

The objective of the Report is to describe the way **the different guidelines GEB has adopted in matters of corporate governance were complied with** during the year, as well as to reflect the main changes and results obtained throughout 2021.

The structure of the Report follows the **recommendations of the Colombian Best Practices Code** and the **Global Reporting Initiative (GRI)** standard.

Key Messages:

- GEB, committed to generating value for its shareholders and stakeholders, and aware of its role in the energy transformation, has defined **“Improving lives with sustainable and competitive energy”** as its higher purpose.
- In this context, sustainability, as an enabler of the strategy, governs the group's operations and seeks to maximize GEB's positive impact in the territories where it operates, attending to the **highest standards of corporate governance and transparency** and adopting best practices and international standards.

5.b

Main Achievements

2021 Annual Corporate Governance Report

Milestones of strengthening corporate governance

Diversity on the Board of Directors

A minimum requirement of 3 women on the Board of Directors and for one of the women to be appointed as Chairwoman and/or Deputy Chairwoman.

Independent Leadership on the Board of Directors

- ✓ An increase in the minimum number of independent members to 5 of the 9 members.
- ✓ In 2021, the Board of Directors had 7 members who met the independence criteria, which corresponds to 77.8% of its structure.
- ✓ The chairpersons of the Board of Directors and its Committees are independent members.

Culture of Integrity

The Legal and Compliance Vice President's Office incorporated the "Moment of Integrity" as a tool for disclosing and sharing the group's corporate governance and compliance models, which is projected before starting the meetings, workshops and events of GEB and its companies.

Ethics and Compliance Strategy

The new ethics and compliance strategy was adopted, which seeks to ensure building a robust and effective Compliance Program based on the pillars of prevention, detection, monitoring and reporting.

5.b

Main Achievements

2021 Annual Corporate Governance Report

Member of
**Dow Jones
Sustainability Indices**

Powered by the S&P Global CSA

GEB was reincorporated in the **Dow Jones Sustainability Index**, obtaining its highest historical results, which allowed **GEB to enter the indices of the Latin American Integrated Market (MILA, for the Spanish original) and Emerging Markets**, ranking 4th in the general classification of public gas services.

sfc Colombian Best Practices Code Survey

Implementation of the measures in Colombian Best Practices Code, in line with the recommendations of the Organization for Economic Co-operation and Development (OECD), we have successfully **adopted 95.9% of the measures**.

For the **8th consecutive year**, **GEB obtained the Investors Relationship Recognition (IR)** granted by the Colombian Securities Exchange (BVC, for the Spanish original) to issuers with the highest standards of information disclosure and investor relations, increasing the percentage of **compliance with the BVC's recommendations to 95.4 %**.

GEB is a member **of the Colombian Corporate Governance Institute (ICGC, for the Spanish original)**, which works on promoting improvements related to corporate governance, thereby contributing to its successful performance.

5.b

Amendment of Corporate Documents

2021 Annual Corporate Governance Report

Documents approved

In line with GEB's higher purpose "to improve lives with sustainable and competitive energy," the Board of Directors **approved the Sustainability Strategy in ordinary meeting No. 1658 of June 24, 2021**, whose objective is to ensure the sustainable growth of the GEB by creating conditions of well-being and prosperity in the territories, transparent and fair relations with stakeholders and contributions to the transition towards energy-efficient and low-carbon economies.

Amended Documents

Company Bylaws – March 29, 2021

In response to the best corporate governance and ethics and compliance practices in various recommendations from national and international organizations, the General Meeting of Shareholders approved the amendment in its ordinary meeting on **March 29, 2021**.

Rules of the General Meeting of Shareholders – March 29, 2021

The adjustments to articles related to meetings, elections and the electoral quotient system and the election of independent members of the Board of Directors are included.

BVC Recommendations – AGA March 29, 2021

- ✓ Rules of the General Meeting of Shareholders
- ✓ Policy on Appointment, Succession and Compensation of the Board of Directors

Internal amendments– JD April 29, 2021

- ✓ The amendment to the Contracting and Audit Manual was approved.

Internal amendments– JD June 24, 2021

- ✓ Rules of the Board of Directors
- ✓ Policy on the Appointment of Members of the Boards of Directors of the GEB companies, Non-controlled Companies and Investment Vehicles

Internal amendments– JD December 20, 2021

- ✓ The amendment of the Internal Work Regulations was approved.
- ✓ The amendment of the Risk Appetite Policy and Methodology was approved

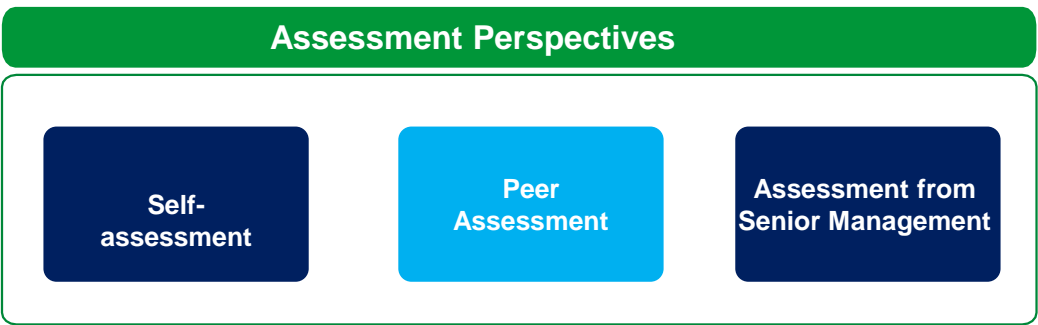

5.b 2021 Board of Directors Assessment and Self-assessment Process

5.b Training Process for Board Members

2021 Annual Corporate Governance Report

On Thursday, December 9, the day that commemorates **the fight against corruption**, training was provided to GEB's Board members, by virtue of their right to continuous training. In said session, reference was made to the prohibitions, obligations, expectations and best practices of international anti-corruption laws, with a particular focus on those that could apply to GEB, its subsidiaries and affiliates, as well as the associated responsibilities of the Board of Directors.

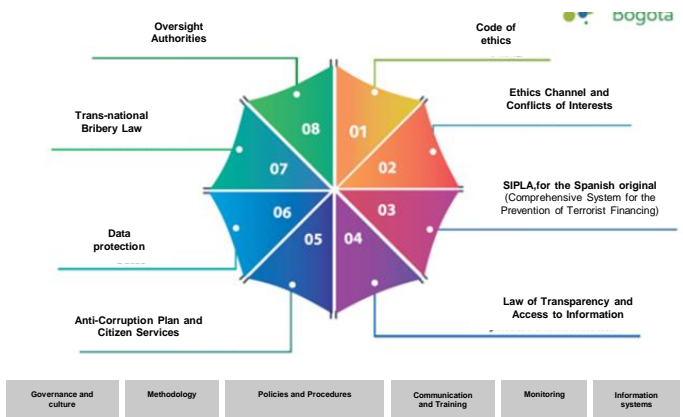

5.b Internal Control System

2021 Annual Corporate Governance Report

The Control Architecture Model is based on **three lines of defense**:

- ✓ The first line of defense, held by employees, enables identifying and managing risks (control/self-control) and implementing corrective actions to address any shortcomings in processes and controls.
- ✓ The second line of defense is framed within the different supervision and monitoring functions performed by the areas that carry out financial reporting control activities, legal and regulatory compliance, quality management systems, information security, supervision and inspection and risk management, where implementing control activities for risk mitigation is facilitated and monitored.
- ✓ The third line of defense involves independent assurance through external and internal audit activities, as well as designing, assuring and implementing audit plans for the organization's key processes (group auditor + specialized auditor and statutory auditor).

Ethics and Compliance Program

Risk Management System

5.b Transactions with Related Parties and Conflicts of Interest

2021 Annual Corporate Governance Report

Policy on Transactions with Related Parties

The Board of Directors must approve the following transactions with related parties upon recommendation of the Audit and Risk Committee:

1. **Non-Relevant transactions** that are not within the ordinary course of business of the contracting companies or are not carried out at market prices.
2. **Relevant transactions** are within the ordinary course of business of the contracting companies or are not carried out at market prices.

Transactions with the Capital District require approval by a special majority of the Board of Directors

Policy on Managing Conflicts of Interest

The provisions regarding managing and solving conflicts of interest are provided in the Policy on Managing Conflicts of Interest, in the title “Conflicts of interest” of the Code of Ethics and title VII of the Corporate Governance Code

Conflicts of interest of the Board of Directors:

María Lorena Gutierrez	Juan Mauricio Ramírez	Ignacio Pombo	María Mercedes Cuellar
GEB's participation in the natural gas markets	Transactions between the GEB and the District Secretary of Finance	Issues with the Data Analytics Agency – Ágata	

5.b Compliance with Corporate Governance Standards

2021 Annual Corporate Governance Report

- ✓ The meetings of the corporate bodies were convened within the legal terms, **providing timely information to support the decisions**, complying with the provisions of the Rules of the Board of Directors and its support Committees, as well as their respective Annual Work Plans and meeting schedules.
- ✓ The **quorum required to meet and make valid decisions** was met with the majorities required by law and the Company's bylaws, and the Board of Directors made its decisions by unanimous vote of the members entitled to vote.
- ✓ **Conflicts of interest** were adequately managed and **transactions with related parties** were carried out respecting the rights of minority shareholders and under market conditions.
- ✓ **GEB responded to the authorities' requirements** within the established terms by submitting the requested information. The actions considered as relevant information were also published in the Comprehensive Securities Market Information System (SIMEV, for the Spanish original).
- ✓ During 2021, **there were no complaints of non-compliance** with the provisions of the Corporate Governance Code and no shareholder complaints.
- ✓ **No disciplinary actions or sanctions** were brought against the Company's directors, officers, executives or other personnel for omissions or harmful acts.

5.b

Challenges

2021 Annual Corporate Governance Report

In 2022, GEB will continue working on:

Corporate culture. Consolidating the culture of sustainability and integrity. Corporate governance as the anchor of the Corporate Strategy, Sustainability and transparency.

Continuity of the Strategy. Adopting additional measures that favor the continuity of the corporate strategy in the medium and long-term.

Relation of the Business Group. Strengthening of the governance of the Business Group, guaranteeing unity of purpose and direction, and respecting the autonomy of each company that comprises it.

Election of the Board of Directors

Background

- The current Board of Directors was selected in extraordinary meeting No. 084 of the General Meeting of Shareholders on January 31, 2020 for a period of 2 years (2020 - 2022).
- Having fulfilled the previous term, the current members continued in their positions until the next election, having verified compliance with the requirements of the Policy on Appointment, Succession and Compensation of the Board of Directors.
- Within the term of the call to ordinary meeting No. 90 of the General Meeting of Shareholders on March 16, 2022, the proposal for a **unique list** of candidates was received from the majority shareholder, the Capital District, to submit it to the consideration of the General Meeting of Shareholders. It includes all of the current members.
- Since it had to do with re-electing the current members, the Vice President of Legal and Compliance verified the requirements and qualities provided in the Company Bylaws and Policy on Appointment, Succession and Compensation of the Board of Directors.
- The verification was subsequently presented to the consideration of the Corporate Governance and Sustainability Committee and Compensation Committee, which accepted the presented report and confirmed the verification of compliance with the requirements for all candidates in a joint session on March 18, 2022.

Unique List of Candidates

The Capital District presented a **unique list** of candidates to submit to the consideration of the General Meeting of Shareholders, which includes all the current members:

Line	Candidate
One	Juan Mauricio Ramírez Cortes
Two	Rafael Pardo Rueda
Three	María Mercedes Cuellar López
Four	Luis Javier Castro Lachner
Five	María Lorena Gutiérrez Botero
Six	Juan Mauricio Benavides Estévez
Seven	Ignacio Pombo Villar
Eight	Martha Yaneth Veleño Quintero
Nine	Andrés Escobar Arango

The unique list includes candidate Juan Mauricio Benavides Estévez, proposed by the 4 minority shareholders with the greatest share in GEB, in line 6, in accordance with the provisions of Section 5.04 of the Shareholder Agreement.

8 Verification of Requirements and Qualities

Since it had to do with a proposal to re-elect all the current members of the Board of Directors, they verified that each candidate complied with the requirements of the Policy on Appointment, Succession and Compensation of the Board of Directors.

Requirements

1 Self-assessment results

- 1. The member's knowledge and update commitment
- 2. Time availability and dedication
- 3. Compliance with managers' fiduciary duties

2 Average attendance to Board of Directors and Committees of over 80%

3 Compliance with requirements and qualities

- 1. Accredited participation on Boards of Directors or senior management in similar companies
- 2. Time availability and dedication necessary to fulfill the duties of their position
- 3. Not subject to any disability or incompatibility
- 4. Not a part of more than 4 additional boards of directors to GEB.

8 Independence Criteria

Independent members

Requirements of Law 964

The members mentioned above comply with 100% of the independence criteria provided in Law 964.

GEB Requirements

The members mentioned above comply with 100% of the independence criteria adopted by Grupo Energía Bogotá.

Non-independent members

Requirements of Law 964

Juan Mauricio Ramírez is currently an employee or executive of the issuer or one of its affiliates, subsidiaries or controlling companies.

The other members are managers of an entity in which a registered agent of the issuer participates in their board of directors.

GEB Requirements

Juan Mauricio Ramírez is currently an employee or executive of shareholders that manage, guide or control most voting rights directly or through an agreement.

The other members are or have been managers of a company in which the Company's CEO or one of its Board members participates in their board of directors, in the last 3 years.

8 Composition of the Board of Directors

“(...) Company Bylaws. Article 60. Composition: The Company shall have a Board of Directors consisting of **nine (9) core members**, elected by the General Meeting of Shareholders using the electoral quotient system, of whom **at least five (5) members must be independent**, as defined by the law and the Company’s Corporate Governance Code and other corporate documents.
At least three (3) women shall be members of the Board of Directors (...)”

Martha Veleño Quintero	Non-independent
Andrés Escobar Arango	Independent

9

Election of the Statutory Auditor

9 Background

- GEB's statutory audit contract is currently signed with KPMG for 2020 and 2021.
- In accordance with articles 59 and 72 of the company bylaws and clause 4 of the Policy on Appointment of the Statutory Auditor, the following was established:

“The Statutory Auditor of GEB S.A. ESP is elected for a period of 2 years, with the possibility of being re-elected until the maximum contract term of 10 years is fulfilled. This is subject to the considerations and pronouncements of the Audit and Risk Committee of the Board of Directors of GEB S.A. ESP. All the personnel assigned to GEB S.A. ESP is sought to be reassigned in the mid-term of the maximum contract period of the statutory auditor.”

Possible impacts related to changing the Statutory Auditor

- ✓ The new contracted statutory auditors will require sessions to understand the processes and businesses of GEB companies. This is particularly relevant as we are in the final stage of implementing Sap4Hana in 10 companies of the Group.
- ✓ Possible recommendations for changes or differences in criteria on accounting aspects or processes of GEB S.A. and its subsidiaries by the new statutory auditor. It must be highlighted that this situation did not arise when the current KPMG auditor began his review and issued his December 2020 report.
- ✓ Possible increases in fees to be charged to GEB for hiring a firm that is not familiar with the companies' operations and would consider additional hours compared to the hours KPMG can budget.

Considerations

It is pertinent to continue with the current Statutory Auditor, considering the understanding and expertise they have already acquired on evaluating the following key issues in the Group:

- ✓ Experience in reviewing the group's financial consolidation process
- ✓ A general understanding of the revenue recognition process
- ✓ Experience assessing the impairment of Group assets
- ✓ Knowledge of Sap4Hana and the implementation process
